

Cyber Resilience Discovery Checklist

Before completing your discovery form, use this quick checklist to evaluate your current resilience posture. Check each item you already meet, the rest become priorities for discussion during your 30-minute review.

- ☐ MFA on all privileged accounts, VPN, and SaaS apps.
- ☐ Endpoint prevention (EDR) deployed and monitored.
- ☐ Email security with active DMARC and phishing protection.
- ☐ 24x7 monitoring or MDR in place.
- ☐ DDoS detection and runbook verified (Lumen).
- ☐ Centralized logs with retention and SIEM searchability.
- ☐ Incident response plan with clear owners and time targets.
- ☐ Quarterly tabletop exercises including executives.
- ☐ Breach communications draft ready for third parties.
- ☐ Immutable backups using Veeam or similar.
- ☐ Restore tests performed monthly.
- ☐ RPO and RTO documented and aligned with business impact.
- ☐ Security policy versioned, acknowledged, enforced.
- ☐ Compliance mapping (HIPAA, PCI, ISO 27001).
- ☐ Vendor risk review process with remediation tracking.
